Profile

As an experienced UX/UI designer, currently located and employed on Vancouver Island, British Columbia, I am seeking an opportunity, in-person or remotely. I will add value to your team with excellent skills and a strong work ethic. With my background, education, experience in design combined with my team-oriented demeanor, I will both lead and/or co-create digital production.

Experience

Digital Media Specialist

March 2025–Present

Queen Margaret's School

- Ideated, prototyped, developed and launched Board of Governors website.
- Planned and ran successful Google/Meta marketing campaigns.
- Improved engagement rates by updating, repairing, and designing webpages.
- Designed physical & virtual graphics for all events and campaigns.
- Videography, photography, film editing, and content creation.

UX Designer & Web Specialist

Aug. 2023–Jan. 2025

TASIS Portugal

- Support the MarCom team in all design related production.
- Designed responsive digital viewbooks requiring new CSS and JavaScript.
- Prototyped homepage ready for web hand-off.
- Created signage, posters, prints, and icon library.
- Amendable teammate in a dynamic office environment.

Education

Interactive Media Developer Certificate

Sep. 2019–Aug. 2022

Camosun College

The IMD program combines application, game, and web development with UX/UI design and graphic design. By engaging in various projects, I learned the skills to take an idea or a problem and develop it from concept to production.

Additional Training

Memorisely

Feb. 2024–Present

Memorisely has taught me optimal UX practices with their online courses and bootcamps, allowing me to expand my skillset learn Figma from industry experts.

Finalsite Barcelona

November 2023

Learned how to differentiate from the market and develop strong brand personality, design trends/future pathways, create personalized content, and implement engagement improvement techniques.
